

To,
Mr. Venkat Reddy
President
Solar System Integrators Association

Subject: Invitation to Join Panel Discussion at Solar & Storage Summit 2025 Telangana

Dear Sir,

Greetings from SolarQuarter and Firstview Group (Asia's biggest cleantech media).

I am delighted to extend an invitation to you to join a panel discussion at [Solar & Storage Summit 2025 Telangana](#).

Date: **21 March 2025**

Time: **09:00 AM to 05:00 PM**

Venue: **Sheraton Hyderabad Hotel, Nanakramguda Road, Hyderabad, Telangana**

About The Event:

"Solar & Storage Summit 2025 Telangana" is the one of the largest Solar meet in the state with a gathering of 175+ top professionals from the solar, hybrid and storage industry of Telangana. The biggest solar gathering will include professionals/officials from Government agencies, Project Investors and Developers, EPC & System Integrators, Service Providers and many others.

The discussions will provide a platform to exchange knowledge, explore innovations, and foster collaboration in Telangana's renewable energy landscape, covering key topics such as rooftop solar, large-scale solar, storage, and hybrid solutions.

We will be honored to have your presence as a key panel speaker for the session on: **Harnessing the Sun: Driving Solar Advancements and Technology Integration in Telangana**.

Panel Time: 03:00 PM - 03:50 PM

Key Discussion Points of the Panel include:

- Innovative Solar Deployment Models: Showcasing examples of advanced solar technologies and business models that are transforming the industry.
- Storage Solutions for Solar Integration: Addressing the potential of battery storage systems in improving grid stability and managing solar intermittency.
- Exploring Green Hydrogen Potential: Discussing emerging opportunities and challenges for integrating green hydrogen projects with solar power.
- Maximizing Solar Efficiency Through Technology: Highlighting advancements in solar panel efficiency, tracking systems, and hybrid renewable energy models.

- Solar Equipment Manufacturing in Telangana: Examining the need to establish local manufacturing units to reduce installation costs and enhance supply chains.
- Floating Solar and Hybrid Models: Comprehensive review including success factors and challenges encountered in current and upcoming innovative projects, encompassing floating solar, as well as hybrid power initiatives.
- Financing and Investment Trends in Solar Energy: Identifying opportunities and strategies to attract investments in Telangana's solar energy sector.

You and your association are at the forefront of transforming Telangana's energy landscape by championing the adoption and expansion of renewable energy sources. Your expertise will provide valuable knowledge and inspiration to our 175+ audience members and also allow you to gain a unique platform to engage in meaningful exchanges with other industry pioneers.

Thank you for your consideration. We look forward to your confirmation to join the panel discussion.

Please find the tentative agenda of the event attached for your reference.

Yours Faithfully,

Kritika Khatri
